

Custom Printing Process : *Step by Step*

1

Place Your Order

Order online or by phone to begin the custom printing process.

2

Submit Print-Ready Artwork

Email your order number and print-ready artwork to prints@jelinek.com.

Acceptable file formats: black-and-white PDF, EPS, or AI.

Include:

- Preferred email for design approval
- Artwork placement and sizing instructions (if applicable)

3

Review Digital Proof

We'll send a digital mock-up for your approval. Please note: the final print may differ in color, tone, and sharpness due to the natural texture of cork.

4

Approve for Printing

Carefully check the proof. If revisions are needed, we'll work with you to finalize the design. Pricing includes up to three revisions—additional design fees of \$50 will apply for every three subsequent revisions. Once approved, production will begin.

5

Production & Turnaround

Printing for in-stock, non-custom products typically takes 2–3 weeks from final approval. Your order will ship once printing is complete.

Important Notes

- All pricing includes printing on one side only.
- Each design counts as a separate print item and is priced individually.
- \$50 design fee applies if:
 - No pre-made logo or print-ready artwork is submitted
 - More than 3 revisions are requested (\$50 applies for every 3 subsequent revisions)
- Colors and image sharpness may vary due to cork's natural tone and digital screen differences.
- Custom-printed items are non-returnable.
- Errors must be reported within 10 days of delivery.
- Proof approval confirms all details and acceptance of our no-return policy for custom prints.
